RANULF FLAMBARD

One of the first prisoners held at the Tower of London and the first to escape

Ranulf served King William II and became very unpopular. People blamed Ranulf for new taxes and for trying to make more money for the king.

In 1099, Ranulf became **Bishop of Durham**. In 1100, William II died and his brother became King Henry I. Ranulf was arrested. He was **imprisoned** in the White Tower at the Tower of London.

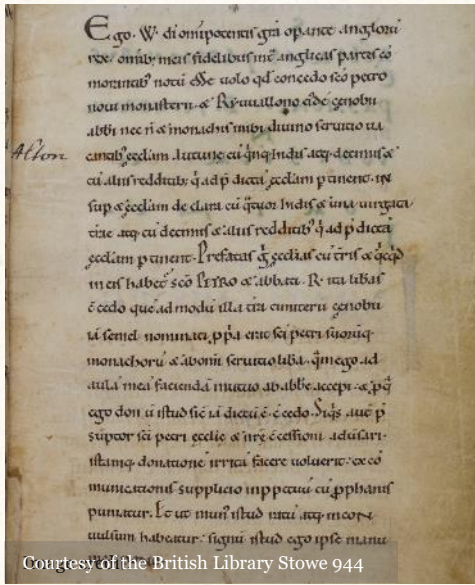

Ranulf's escape from the Tower is legendary. One story suggests he escaped by:

- having a rope smuggled into the Tower in a barrel of wine
- giving the wine to his guards, who drank too much and fell asleep
- climbing down the rope to where his friends waited with horses
- sailing to Normandy.

This image shows windows at the White Tower where Ranulf may have been held.

It is said, he paid the king £1000 for his position as Bishop.

William of Poitiers' original biography no longer exists. This image shows an example of Latin writing from around the 1070s.

William of Poitiers described William I at the Battle of Hastings:

'William was a noble general, inspiring courage, sharing danger, more often commanding men to follow than urging them on from the rear.'

WILLIAM OF POITIERS

A Norman priest who wrote a biography of William I

William was born into a wealthy Norman family. He originally trained as a **knight**. Later, he became a priest and **chaplain** to William, Duke of Normandy (who later became King William I).

William of Poitiers wrote a **biography** of William I between 1071 and 1077. It tells the story of how William I planned and achieved the conquest of England. It also includes a detailed description of the Battle of Hastings which is probably based on first-hand **oral** accounts.

William wrote the biography in Latin. Translated into English, the title is 'The Deeds of William, Duke of the Normans and King of the English'.

Q: Why is William of Poitiers' description of the Battle of Hastings important as historical evidence? Do you think the biography is likely to be biased?
