## HOW TO MAKE YOUR CHATTERBOX

- Carefully remove this instruction sheet by tearing along the perforations, so you have a square. This square will become your chatterbox.
- Fold the square in half, matching edge to edge, corner to corner.
- Open it out flat again.
- Fold the square in half the other way.
- Unfold the square and lay it down flat, with the blank side facing up.
- One by one, fold the corners of the square into the centre. Press along the folds to make firm creases. When you have folded all the four corners, it will still be a square, but smaller.
- Turn the square over, so the writing is facing up.
- Again, one by one, fold the corners of the square into the centre. Press along to make firm creases.
- Fold the square in half, so the pictures are inside and the numbers on the outside.
- Slide your index fingers and thumbs under the numbered flaps so that you can make the chatterbox move.
- Pinch your fingers and thumbs inside the chatterbox and bring them together so that the pictures are hidden inside and you can see the numbers on the outside. You can open and close the chatterbox by moving your fingers and thumbs.
- Turn over this instruction sheet to find out how to play.

## HOW TO PLAY

- Ask someone to pick a number: 1, 2, 3 or 4.
- Open and close the chatter box that number of times.
- Ask them to choose a picture, then lift the flap to find the challenge underneath. Tale turns and try as many challenges as you can.

 **Take care in the garden, especially near water.**

*Children, please play with your adults, so you can keep an eye on them.*

## MAKE A NEW CHALLENGE CHATTERBOX

- If you want to come up with your own challenges, you can!
- You can borrow a pencil from the Garden Explorers' Cart in the Walled Garden.
- Completely unfold the chatterbox so you have a large square. Write your challenges on the blank side. Add pictures and numbers. Turn the square over, then follow steps 6 – 11 to fold up your chatterbox again.

*Take home and colour it in!*
