

Norman Castle Spotter Sheet

Where are you visiting today? _____

Can you spot:

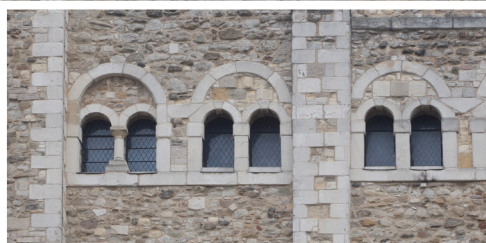

Large light-coloured stone

Carvings

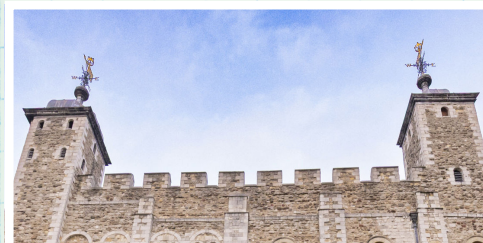

Turrets

Arch shaped windows

Arrow loops

Crenellations

If you see these features, they might be clues that you've found a **Norman castle**.

But remember:

Other buildings might have these features too, and buildings change over time!

Did you know?

The Normans arrived in England in 1066 and built over 500 castles!

Did you know?

The Normans brought stone all the way from France called Caen stone to build their castles.
